

# Introduction to Teaching Human Factors and Safety Culture

This forum reviews Safety Risk Management, Pilot Proficiency, and Aviation Technology in the context of 3 elements that are essential to safe operations. It then introduces the topic of Human Factors and describes why they are important considerations for Flight Instructors and Pilots in general. Examples of robust safety culture ingredients are cited and the audience is asked to compare their safety cultures to the examples.

**Directions:** Buffalo-Niagara Airport (BUF) - Just off Aero Drive at former Flying Tigers Restaurant
